

D180F - the all-purpose solar fridge-freezer

Features

A++ cooling Technology
Compressor Speed Control
Automatic Selection of 12 V / 24 V
Applicable for all DC Applications

Digital Temperature Display
Temperature Fully Programmable
User friendly display

Technical Data

System voltage	12 V 24 V
Energy efficiency	class A++
Cooling method	compressor
Energy optimized speed control	yes
Full digital and electronic control system	yes
Configurable	yes
Usable cooling volume	166 litres

CFC Free

2 separate compartments- Can be set as fridge or freezer

CE Marked

Conforms to European Standards

Proved for Solar Applications

Lockable

Baskets

High Insulation

Low Daily Average Power Consumption
